Letter of Notification of Wellhead Protection

Dear Resident

As part of the Wellhead Protection Program For Clearwood Community Association, we are hereby informing you of the findings of our wellhead protection area delineation. This is in accordance with State regulations (WAC 246-290-135)

Our Association serves 1.355 lots, of which, approximately 80% currently have residences on them. The State Department of Health has given our system a rating of "moderate". This means that our system is somewhat vulnerable to contamination.

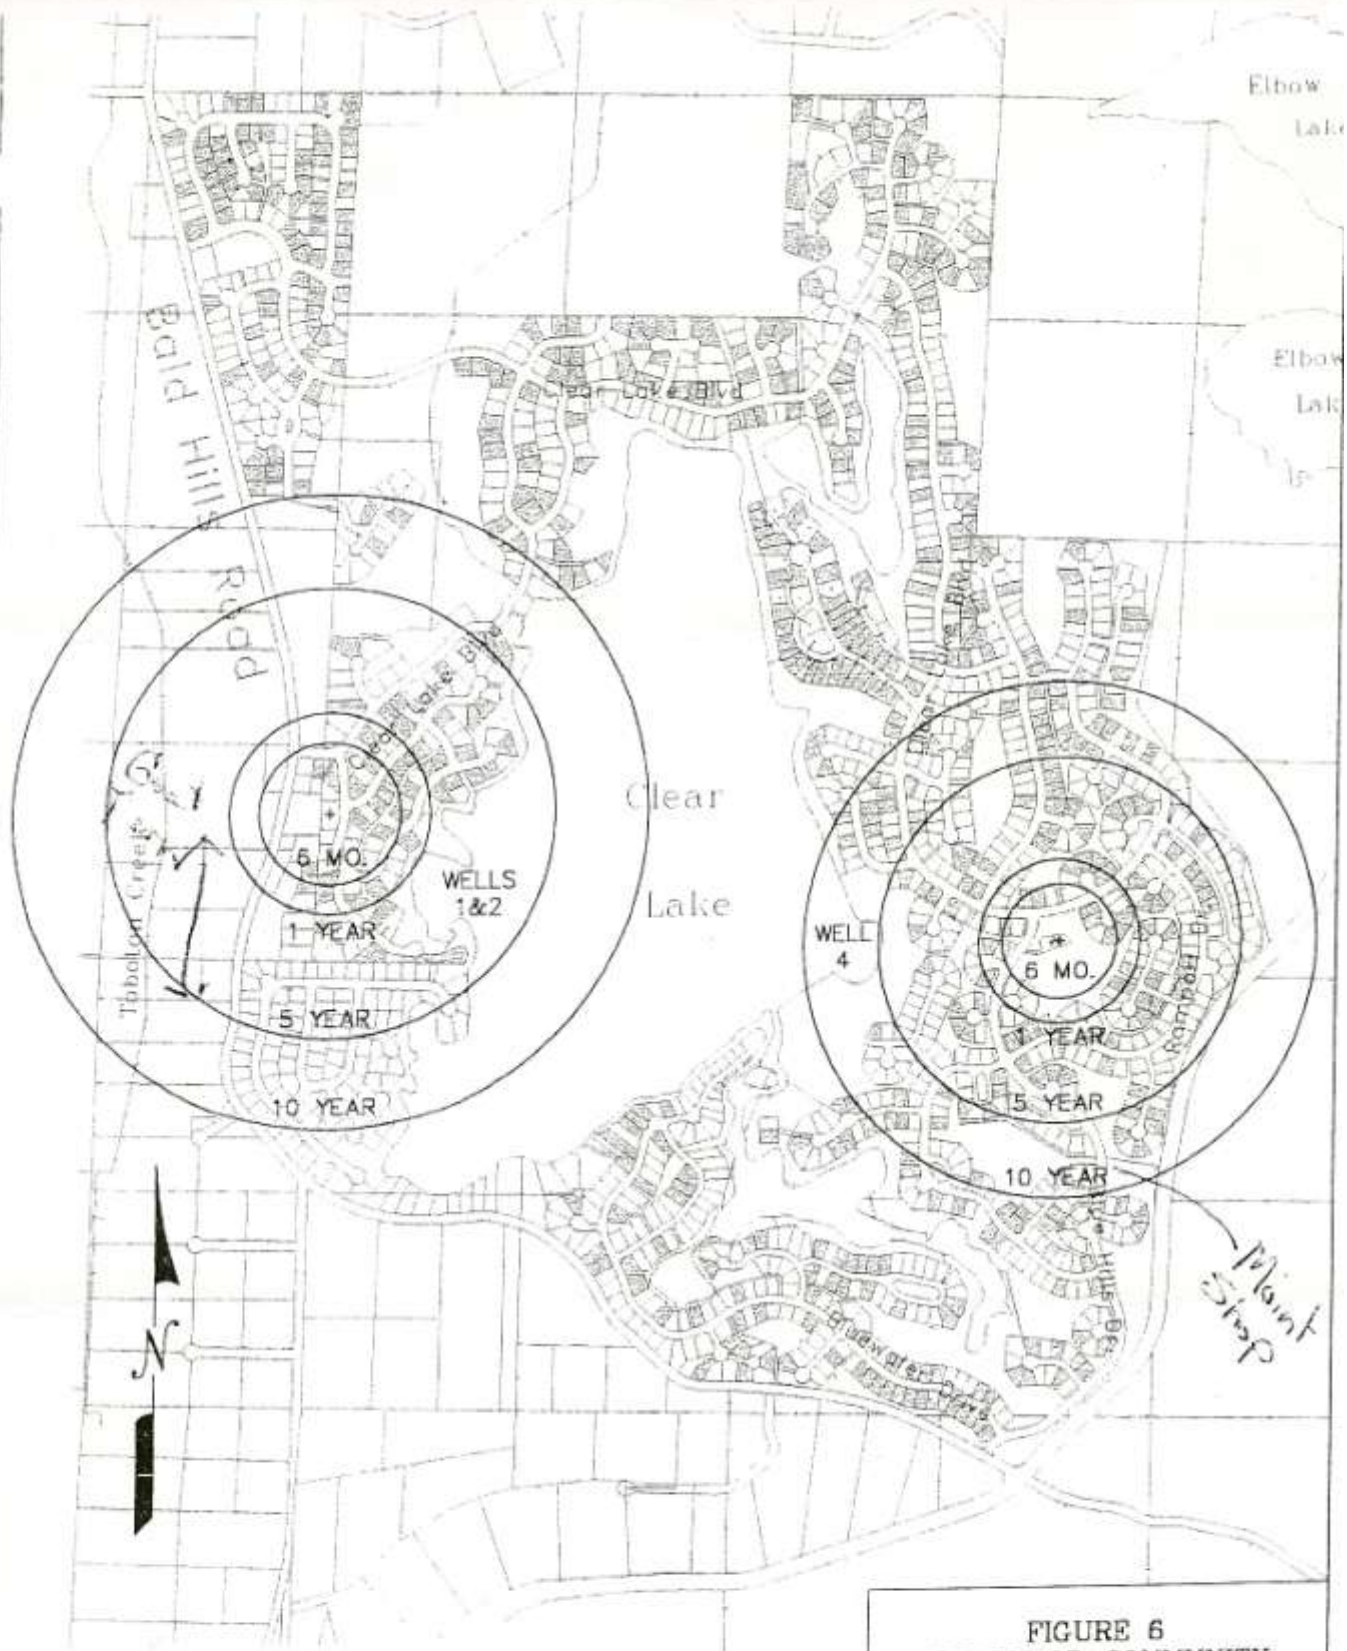

Enclosed is a map showing the 6-month, 1-year, 5-year, and 10-year time of travel boundaries for our wellhead protection area. Any ground water contamination that occurs within this wellhead protection area has the potential to reach our well. Please be aware that it is of the utmost importance to us that all reasonable steps be taken to ensure that land use activities within this area do not contaminate our drinking water supplies.

Thank you in advance for your support and cooperation in this matter.

Sincerely,

A handwritten signature in blue ink that reads "J. Baumann". The signature is written in a cursive style with a large initial "J".
