The amount assessed against each Lot shall bear the same proportion to the total amount assessed against all Lots as the number of Residential/Recreational Lots subject to assessments. Payment of such assessments shall be due within thirty (30) days after notice of assessment. The water service charge shall be included in the assessment billing, as well as any special levies which might be voted in by the Lot owners at an annual meeting. 3. Such general and special assessments, together with reasonable costs of collecting them, including reasonable attorney fees, shall be a personal obligation against the owner of the Lot, which the Association may enforce by court action. Such general and special assessments also constitute a lien upon the owner or purchaser's interest in the land in Clearwood, which shall be enforceable by foreclosure proceedings in the same manner as provided by law for foreclosure of real property mortgages. Such liens shall be superior to any and all other liens except mortgage liens recorded prior to the date of assessment. In addition to all other remedies, the Association shall have the right to withhold the current gate card to any Lot owner, purchaser or occupant until assessments have been paid.

X. BUILDING AND LANDSCAPING RESTRICTIONS

Storage sheds shall not be plumbed and shall be limited to one story and placed in an inconspicuous spot on the Lot, but only with the approval of the Architectural Control Committee, sometimes referred to herein as the Committee.

2. No construction shall be commenced without first obtaining approval by the Architectural Control Committee as to plans and a building permit from the proper governmental authority. All buildings shall conform to the specifications of the most recently adopted State of Washington Electrical Code and the Uniform Building Code and in accordance with fireplace requirements and plumbing code and all waste requirements in force at the time of commencement of onsite construction.

3. Each single-family residence shall contain a minimum of 600 square feet, exclusive of second floors, open decks, garages, covered carports, sheds or other appurtenances or outbuildings. Mobile homes, as defined by the statutes of the State of Washington, are hereby prohibited as permanent residences.

4. All residential structures shall be erected on a concrete foundation, built according to specifications of the Thurston County Building Department, with the exception that as to structures over steeply pitched ground, a combination of concrete blocks on a concrete foundation poured on site may be used.

5. Buildings on residential Lots shall be simple, well-proportioned structures. Exterior finishes shall have a flat, non-gloss appearance, and colors shall tend to dark grays, gray-greens, browns and earth tones. Exterior trim shall be stained or painted to compliment the finishes they adjoin.

6. The Architectural Control Committee may, upon application by the owner and upon studying the house plans and the site, determine whether the building should or should not have an overhang of the roof, and if so, how much, so long as the building designs are aesthetic, appealing and compatible with the overall character of Clearwood.

7. No building shall be located, erected or altered until a plan showing the location of the structures and construction plans and specifications shall have been submitted to and approved by the Architectural Control Committee of the Association. In considering the location, plans and specifications for any structure, the Committee shall take into account the following factors:

a. Quality of workmanship and materials

b. Harmony of external design and finish with the topography and with existing structures;

c. The effect which the proposed structures or alterations will have on other building sites and views therefrom, it being the Committee's responsibility to give the maximum protection to such views as may be reasonable under the circumstances; and

d. All other factors which the Committee may, in its sole discretion, deem to affect the desirability or suitability of the proposed structure or alteration.

Subject to the prior approval of the Committee, outbuildings may be constructed prior to the construction of permanent residences if such outbuildings are permissible under Section I of this Article X and if they are complimentary to and compatible with the design and location of the proposed permanent residence. The corners of proposed structures shall be staked on the ground at the time of the Committee's consideration of location, plans and specifications.

Minimum side yards and setback distances are to be those specified by the proper governmental authorities and as shown on the plats.

The exterior of any building shall be completed within one (1) year of the beginning of construction so as to present a finished appearance when viewed from any angle.

8. Maintenance and any alterations of Common Areas shall be the responsibility of the Board of Directors and the Committee. No trails, steps or other appurtenances shall be allowed from private lots to cross Common Areas. No removal of natural trees, shrubs, brush or other ground cover shall be undertaken on any Residential/Recreational Lot unless and until the plans for and/or specifications of such work shall have been submitted to and approved by the Architectural Control Committee.

9. The Committee shall have the power to charge a reasonable fee for costs incurred in processing and considering plans and specifications submitted to the Committee for its approval. Approval or disapproval of any matter submitted to the Committee shall be made within thirty (30) days of submission to the Committee or its duly appointed representative and shall be in writing. Any owner or purchaser aggrieved by the Committee's action may appeal to the Board of Directors of the Association. Appeals shall be made in writing within ten (10) days of the committee's mailing of its decision and shall set forth the part of the Committee's action deemed objectionable. The appeal shall be considered by the Board at its next scheduled meeting, and a final and conclusive determination shall be made by the Board within fifteen (15) days after such meeting.

10. No Fence, hedge or boundary wall shall be located closer to the street than the minimum building setback line. No chain-link fence shall be permitted on any private Lot in Clearwood. No fence, hedge or boundary wall situated anywhere on a Residential/Recreational Lot shall have a height greater than six feet above the finished grade surface of the ground, and in no event shall any fence, hedge or boundary wall be maintained or permitted to remain at a height that unreasonably impairs the view from any other lot. No trees or bushes, other than those presently existing, shall

be permitted to attain a height that would unduly impair the view from any other Lot. By permission from the Architectural Control Committee view Lot owners may be permitted to remove some lower branches from trees or brush obstructing their view. Prior permission from the Architectural Control Committee is mandatory.

11. Adequate off-street parking for at least two cars shall be provided on each Lot.

12. The use of tents, RVs, campers, travel trailers or motor homes shall be permitted on Residential/Recreational Lots during the one (1) year construction period. The use of RVs, travel trailers, campers, tents and motor homes is prohibited as permanent residences; however, they may reside on Residential/Recreational Lots from one weekend before the opening of fishing season through October 31, at which time all RVs, travel trailers, campers, tents and motor homes shall be removed from the individual Lots. Any owner, purchaser or occupier who does not remove such vehicles so designated will receive a fine to be determined by the Board of Directors, based upon the cost of such removal. Boats shall be permitted at the designated boat tie-ups from one weekend before the fishing season through October 31, at which time they shall be removed, and in the event the owner thereof does not remove the boat, the Association may levy a fine. RV's, trailers and campers may be stored at residences only if screening from the road is agreed upon by the Architectural Control Committee and the Lot owner. In the event an agreement cannot be reached, the issue shall be determined by the Board of Directors of the Association.

13. Easements for drainage, utilities, walkways, driveways and access roads are shown on the face of the respective plats. In addition, five-foot-wide drainage and utility easements are reserved within and along the front and back property lines of all Lots, and two-and-one-half-foot-wide drainage and utility easements are reserved within and along the side lines of all Lots.

14. All driveways shall be constructed to prevent the flow of surface water onto the street. All driveway crossings over drainage ditches must be equipped with adequate culverts capable of assuring the free and unobstructed passage of the waters therein, unless the Architectural Control Committee determines that such culverts are not necessary. Culverts shall be concrete pipe, eight inches in diameter, and shall be installed at a depth sufficient to permit an unobstructed water flow in the ditch. The owner or occupant of the Lot shall keep the culvert under it unobstructed and in good operating condition.

15. Outdoor fireplaces and fire pits must be placed in an open area safe from trees, brush, underground peat and other flammables and should be

lined with rock or concrete. Owners, visitors, renters/residents are responsible for putting fires out completely before leaving their Lot.

XI. REPAIRS, MAINTENANCE & CLEANLINESS

Lawns shall be mowed at reasonable intervals. Undesirable weeds having a tendency to spread across property lines shall be kept under control. No objects foreign to the Clearwood environment (including particularly disabled vehicles), furniture or appliances shall be permitted to remain out of doors on any Residential/Recreational Lot.

XII. ENFORCEMENT OF COVENANTS

The Association shall have the right through the Bylaws to levy fines for any violations in Articles IV through XI. Any violation of covenants appearing in Articles IV, V, VI, VII, VIII, IX, X and XI shall be considered to be a nuisance and the Association or its duly appointed representative shall have the right upon written notice to enter upon the Lot where the violation occurs or appears and abate the nuisance at the expense of the owner or other person in control or possession. The Association, its duly appointed representative or any person owning land in Clearwood may prosecute a civil action against any person or persons violating or attempting to violate any of these protective covenants, to either enjoin or otherwise prevent the violation or attempted violation or recover damages therefor. "The Association or any person bringing such action shall be entitled to recover from the violator reasonable attorney fees, court costs and other costs reasonably incurred, which costs shall constitute a lien upon the violator's land in accordance with the laws of the State of Washington.

XIII. DURATION OF THESE COVENANTS, CONDITIONS AND RESTRICTIONS

These amended covenants, conditions and restrictions shall be binding upon all persons owning or purchasing land in Clearwood Divisions I thru XIX until September 1, 2010, at which time these covenants, conditions and restrictions shall be automatically extended for successive periods of twenty (20) years, unless by vote of persons owning or purchasing a majority of the Lots in Clearwood Divisions I thru XIX agree to change the covenants in whole or in part. For the covenants to be changed in whole or in part fifteen (15) years after this date, a vote of sixty-five percent (65%) of the Lot owners shall be required, and for the covenants, conditions and restrictions to be changed in whole or in part in ten (10) years, a vote of seventy-five percent (75%) of the owners shall be required.
