Water Reserves Reserve Study Update<br>Level III: Update with no visual site Inspection

For Period Beginning: January 1, 2017
For Period Ending: December 31, 2017

Date Prepared: March 22, 2016
Prepared by Ben Budde
Clearwood Treasurer and Finance Committee Chairman

Report Period: January 1, 2017 through December 31, 2017
Findings as of $1 / 1 / 2017$
Projected Starting Reserve Balance: \$217,600
Current Fully Funded Reserve Balance:.............................. \$5,706,985
Average Reserve Deficit Per Unit: \$4,051
100 \% 2017 Annual "Full Funding" Contributions:................. \$474,320
Baseline contributions(min to keep Reserves above \$0):...... \$241,000
Most Recent Budgeted Reserve Contribution Rate:.............. \$250,675

Economic Assumptions:
Net Annual "After Tax" Interest Earnings Accruing to Reserves.... 0.95\%
Annual Inflation Rate..................................................................... 3.00\%

The Water Reserves is currently 4\% Funded. There is a High risk of needing a Special Assessment at some time in the future. In order to get to $100 \%$ funded in the 30 year period the assessment would need a one year special assessment of $\$ 760$ per lot and an increase $\$ 165$ per lot continuing assessment plus an $3 \%$ annual increase thereafter. In order to maintain a baseline funding in the 30 year period the assessment would need a one year special assessment of \$760 plus an 3\% annual increase thereafter.

The next two pages contain the component list. Components due to be renovate in 2017 are mark with yellow. Components due to be renovate the four years following 2017 are mark in green. Following the component list is the Budget Disclosure statement for General Reserves included tables of projections for the next 30 years for the current budgeted plan and the fully funded plan.

This reserve study meets all requirements of RCW 64.38.070. This study was done by the Clearwood Treasurer and Finance Committee chairman without the assistance of a reserve study professional. This reserve study should be reviewed carefully. It may not include all common and limited common element components that will require major maintenance, repair, or replacement in future years, and may not include regular contributions to a reserve account for the cost of such maintenance, repair, or replacement. The failure to include a component in a reserve study, or to provide contributions to a reserve account for a component, may, under some circumstances, require you to pay on demand as a special assessment your share of common expenses for the cost of major maintenance, repair, or replacement of a reserve component.

b) Additional assessments that have already been scheduled to be imposed or charged, regardless of the purpose, if they have been approved by the board and/or members: None
c) Based on the most recent Reserve Study and other information available to the Board of Directors, will currently projected Reserve account balances be sufficient at the end of each year to meet the association's obligation for repair and/or replacement of major components during the next 30 years? NO
d) If the answer to c) is no, what additional assessments or other contributions to Reserves would be necessary to ensure that sufficient Reserve Funds will be available each year during the next 30 years?
